From the President

I am sitting in the office on a lovely Sunday afternoon anticipating the arrival of spring sometime soon. I have seen pictures of the crocuses blooming in some locations and hopefully they will be showing their happy faces here soon.

Planning is under way for all the Lighthouse spring events. There are exciting plans happening for our Thursday evening programs. Two workshops are coming up as well—one on Mediumship and one on Healing. Mini Readings will be happening again on May 10th. So keep an eye on the calendar in our newsletter, on the board in the foyer, or on our website at: lighthousespiritualcentre.ca for more information.

We are always looking for more volunteers to help us. So if you are interested in helping with our Thursday evening Programs, or doing some baking or at any of our events, please see a Director with a gold badge and let them know. As no one is paid at Lighthouse—we are all volunteers, even our Minister. We give our time because we believe that Lighthouse is a very special place. May your Spring be a time of Joy.

Simplicity of Life

The Spirit World tells us we have been given everything we need to survive on this earth—food, water, air, etc. There is also the cure for all disease, although some not yet discovered.

When we totally realize that we are a spiritual being not just a human being and allow ourselves that truthfulness then many of the hardships, stresses, diseases, and disharmony to the physical, emotional and spiritual body can be eliminated.

Much of the time our subconscious mind operates the body. In other words we allow ourselves to be ruled by past experiences and reactions and the “autopilot”, the subconscious, does the work. Our consciousness is the opposite (manual operation), of the machinery known as the human body.

So when we react to a particular event that we have experienced before we can choose to follow our “scripted” reaction, our response on autopilot, with our self trained reaction by the subconscious which says we can respond like in the past, either by suppressing the pain whether physical or emotional or we can consciously consider the situation and react to it in a way we would like to see the positive and have a new outcome. When we use the conscious mind the result is spiritual growth, the response thought through with the anticipation of a better result.
